

# ***Hurricane Escape Plan***

## ***Stay Safe Before the Storm!***

***When a hurricane approaches, every second counts.*** That's why having a clear, simple plan can mean the difference between safety and danger. At Oak Creek Homes, we're proud to partner with NOAA, bringing you hurricane safety education—so you can take early action and protect your family. Don't wait! Make sure you are safe. Evacuate as soon as local officials issue a warning or earlier if you feel unsafe.

### ***Why Should You Plan?***

- **Roads flood fast.** Planning early helps you avoid traffic, closed roads, and panic.
- **Resources run out.** Shelters fill, gas stations close, and supplies sell out.
- **Protect your loved ones.** Ensure your family, pets, and neighbors stay connected and safe.
- **Peace of mind.** Knowing what to do keeps you calm under pressure.

### ***How to Prepare***

- Know your evacuation zone.
- Fully charge phones, power banks, and radios.
- Use NOAA Weather Radio or app for updates.
- Fill your gas tank.
- Have cash on hand.
- Remove loose outdoor items.
- Prepare for pets: food, leashes, carriers.
- Shut off propane, gas, and electricity if advised.
- Board windows or install storm shutters if able.
- Inform your friends and family of your plan.
- Prepare a Go-Bag with necessary supplies.

### ***Go Bag Essentials***

- ☐ First aid kit
- ☐ Medications
- ☐ Important documents
- ☐ Food and snacks
- ☐ Pet food and supplies
- ☐ Water
- ☐ Flashlight
- ☐ Extra outfits
- ☐ Chargers
- ☐ Radio and batteries

OakCreekHomes.com

**IMPORTANT NOTICE:** We are NOT suggesting or advocating that remaining in an Oak Creek Home during a storm with high winds and/or heavy rains and/or flooding is advisable. We urge our customers to be vigilant as to the risks inherent in any weather event, and act accordingly, consistent with the advice and instructions of local authorities.
